USER INTERFACE

Python Tkinter interface connected to MySQL

The screenshot shows a Python Tkinter window titled "Vehicle Service Centre | Devika - DBMS Project". The window contains a central form titled "Vehicle Service Centre" with the subtitle "Connect to your existing MySQL database". The form has five input fields: "Host" (localhost), "Port" (3306), "User" (root), "Password" (masked with asterisks), and "Database" (VehicleServiceCentre). A "Connect" button is located below the fields. A note at the bottom states: "Your password is used only for this connection; it is not saved."
